

Did You Know...

John Hancock's Long-Term Care riders utilize the reimbursement model for Long Term Care claims?

With over 25 years in the Long-Term Care Insurance business, John Hancock has paid out more than \$4 billion in LTCI claims. This depth of experience sets John Hancock apart.

Many life insurance companies offering long-term care riders lack experience in dealing with LTC claims process. This may be why these companies utilize the "Indemnity" model to pay claims.

John Hancock utilizes a "Reimbursement" model to pay claims, allowing the insured to benefit from the company's extensive experience in delivering the highest level of service and support at the time of claim.

The chart below compares the two models insurance companies can follow when paying claims — with John Hancock's claims paying approach you can rest assured that your clients are in good hands.

Model	John Hancock's Reimbursement Model Approach	Indemnity
Cost	<ul style="list-style-type: none"> The rate to determine the charge is level and guaranteed 	<ul style="list-style-type: none"> The following companies can increase rates for their long-term care or chronic illness riders: Minnesota Life, Nationwide and Protective
Claims Support	<ul style="list-style-type: none"> John Hancock's Long Term Care claims area is staffed with Registered Nurses and Social Workers who: <ul style="list-style-type: none"> Establish professional relationships and make regular contact with claimants and/or their families Help insured navigate through the LTC process 	<ul style="list-style-type: none"> Insured or Insured's family must function as a "claims administrator," processing bills and writing checks, often for multiple providers and services
Taxation: (Based on 2014 HIPAA limit of \$9,900/month or \$330/day)	<ul style="list-style-type: none"> The reimbursement model does not create a taxable event for claim payments because the expenses are incurred At John Hancock, the maximum possible monthly limit is \$50,000, <i>more than five times higher</i> than the tax-free indemnity limit 	<ul style="list-style-type: none"> Amounts in excess of the HIPAA daily/ monthly limit are treated as income for tax purposes — Generally, the face amount can not exceed \$500,000 or the HIPAA limit would be violated
Benefit Preservation	<ul style="list-style-type: none"> Disburses only the funds necessary for insured's care directly to the care provider — and therefore preserve their benefit pool and extend their benefit period 	<ul style="list-style-type: none"> Clients who receive amounts greater than their long term care expenses may deplete their long term care pool and death benefit sooner than with the reimbursement model Funds may be diverted to other uses or to opportunistic individuals
Quality of Care	<ul style="list-style-type: none"> Care is provided by licensed professionals that the insured selects with help from John Hancock. John Hancock has been in the LTC insurance business for over 25 years. John Hancock helps establish a plan of care, which is executed by a licensed professional 	<ul style="list-style-type: none"> Care could be provided by a non-licensed professional. Without the support of an experienced claims provider, the quality of care could be inferior — and more expensive — with the Indemnity Model

Competitor information is current and accurate to the best of our knowledge as of June 2014. On guaranteed UL products, premiums would not increase, however cash values could change.

The Long-Term Care (LTC) rider is an accelerated death benefit rider and may not be considered long-term care insurance in some states. There are additional costs associated with this rider. The Maximum Monthly Benefit Amount is \$50,000. When the death benefit is accelerated for long-term care expenses it is reduced dollar for dollar, and the cash value is reduced proportionately. Please go to www.jhsalesnet.com to verify state availability.
